

pH Bar Newsletter

Volume 1, Issue 6, 14th November 2022

The pH bar will be reopening on Friday 18th November!

New security at the Ups Club

The pH bar will be reopening as usual from this Friday (18th). We had to close the bar for these last few weeks due to some break ins at the Ups Club. The RMH facilities and security team have worked very hard to increase the security of the Ups Club building so that we could reopen as soon as possible. There will be additional security measures that we all need to observe to ensure the building remains secure. You may have noticed the main front door to the club has had a bit of upgrade. This door is now card access only and currently the permissions to this door are extremely limited. We will be developing a system working alongside the RMH to be able to add access to the main door for those who want to use the bar and other Ups Club facilities very soon. However, in the meantime this means entry to the bar will be via the fire exit on the decking. You may use the main Ups club door as an exit from the bar/club but please do not let other people into the building this way or prop the door open for any reason. On days in which the bar is not open the building will be completely locked down at 8 pm. Please bear with us whilst we adapt to the new changes!

The December Quiz

The pH bar quiz is back! Come down to the bar on Thursday 1st December at 6:00 pm in teams of up to six for a chance to win the rollover jackpot! Entry is £1 per person.

The jackpot went unclaimed at the last quiz so is now at a rollover of **£78!**

PhD students Rachel and Imogen will be hosting!

Come early to guarantee a table!

Volunteer of the Month

Our volunteer of the month is the pH bar door:

Whilst most other doors in the Ups Clubs failed during the recent vandalism incidents, the door to the bar itself held strong. Despite many kicks and attempts to enter the bar the pH bar door stayed solid and steadfast. By remaining resilient the bar and alcohol remained safe from the intruders. The door is truly an inspiration to us all, standing up for what is right in the face of adversity.

Drink(s) of the Month

We will be doing several 2-4-1 deals on a number of beers as we look to streamline our beer selection. These deals will run all night long beyond happy hour – catch them before we run out!

If you're particularly passionate about us keeping a specific beer or have a drink you'd like us to stock – please let us know!

Puzzle

Solve the puzzle below and send the solution to phbar@icr.ac.uk to be in for a chance to win a drinks card worth £5 to spend at the bar!

$$\text{3 bottles} = 24$$

$$\text{1 bottle} - \text{2 balloons} = 5$$

$$\text{1 door} \div 6 = \text{2 balloons}$$

$$\left(\text{1 door} - \text{2 bottles} \right) \times \text{2 balloons} = ???$$

Last month's winner was
Anna Schlag!

Solve the final equation!

If you would like to join our list of volunteers or the pH bar committee, please send an email to phbar@icr.ac.uk, or pop down to the bar and chat to any of us working behind the bar.
